

HIGHLIGHTS

FRED VIGEANT

Vice President &
Chief Audience Officer

It's always a pleasure to meet friends who are enthusiastic about the dramas on WITF. I had such an opportunity early last month to meet viewers at our **All Creatures Great & Small** preview screening and dinner at the WITF Public Media Center in Harrisburg.

All Creatures has become very popular on WITF TV, and I appreciate seeing your interest as we make our way through the fourth season. The new episodes conclude February 18 with the Christmas special. At the time this guide goes to print, I haven't heard if the series will be renewed for a fifth season. Here's hoping we're all back next year enjoying the scenery from the Yorkshire Dales yet again.

I can't wait for you to see the premiere of Dr. Henry Louis Gates, Jr.'s newest docuseries, **Gospel**. This month, he'll guide us through an exploration of gospel music and its role in African American religious gatherings.

You'll feel the energy and tap your toes through this incredible two-part, four-hour-long series on February 12 and 13 at 9:00pm on WITF TV and the PBS app. We'll run a repeat of **Gospel** the following Sunday beginning at 11:00am.

In the late 1960s, Black men and women were recruited to join Pittsburgh's inner city EMT — and America's first EMT service — Freedom House Ambulance. Our friends at WQED in Pittsburgh share their fascinating history in **Freedom House Ambulance: The First Responders** on February 11 at 1:30pm and February 19 at 9:00pm.

We wrap up the final season of **Doc Martin** on February 29 at 8:00pm. To my knowledge, this is the end of Doctor Martin Ellingham's story. The special final episode is about 65 minutes long, so be sure to make extra time to

watch. We'll rerun seasons 8 through 10 later this year.

This month, we'll feature several new episodes from **Nature** and **NOVA**. One particularly exciting episode is **Nature: Attenborough and the Jurassic Sea Monster** on February 14 at 8:00pm. You'll get an inside look as Sir David Attenborough and a team of scientists unearth a once-in-a-lifetime find: the fossil of a giant Pliosaur, the largest Jurassic predator ever known. This is a fascinating discovery, so be sure to check it out.

We have some moving dramas landing in the schedule next month. The 13th season of **Call the Midwife** premieres on WITF TV on March 17. We'll run an all-day season 12 marathon leading up to the first episode of the new season.

We'll also have two **MASTERPIECE** dramas coming your way the same night. First comes **Nolly** at 9:00pm, starring Helena Bonham Carter. **Nolly** reveals the story of Noele "Nolly" Gordon, one of the most famous faces on British TV in the 1960s and 70s, whose unceremonious firing from her hit show at the height of her career was front-page news.

Then, at 10:00pm, **Alice and Jack** shows how love plays out between two very different people over 15 years.

That wraps it up for now. Enjoy your February with WITF. We'll talk again soon!

Fred

Say It with Roses
